MANILA ADVICE TO SIXTO LOPEZ

His Advertiser Interview the Sub- ing a resting place. ject of Sharp Comment There.

When Sixto Lopez was in Honolulu he was very free in his denunciations of the action of the United States in ippine Islands after it had legally ac- Honolulu's attractions. quired them by purchase from Spain. The line of the Rapid Transit com-Many of his utterances while on Ha-pany up Manoa road through this tracthem in Manila when he arrives here.
While in Honolulu set of questions
were put to Mr. Lopez in order to obtain some light on the program which he has for his work in Manila. The questions submitted were as follows:

Will peace be established soon? 2. What then? Will Filipinos ask to have the islands admitted as Terri-

3. How would the colonial form suit 4. Would free trade with the United

States be to Philippine advantage? 5. How are Americans regarded by intelligent Filipinos?

6. What is Filipino opinion about Protestant missionary work in the ar-

To each of these questions Sixto Lopez made the following replies: 1. You must ask the United States administration. The Filipinos are and always have been ready for peace. It is certain that permanent peace will never be established until Philippine

independence is obtained. 2. Then there will be government with the consent of the governed. It is very unlikely that the Filipinos will ever ask to have the islands admitted

as Territories. 3. Colonial government will never suit a people who desire to be independent. Such a form of government is suitable only for a people who de-sire colonial government, and it is impossible to make a people desire what they do not want. You cannot love that which you hate, and you cannot be made to love it by force of arms 4. Yes. And it would be an advantage to the United States also, out not to those Americans who are en-

gaged in the production of sugar and tobacco. Monopolies thrive best under a protective tariff.

5. Just the same as they are regarded by other intelligent peoples. We respect the good and suspect the bad And we regard the American who tries to get more of the earth's surface than he is justly entitled to in the same manner as we regard the man who tries to get more of another person's goods than he is entitled to. We think that it is just as bad to take a country of the c try by force as to take a watch by force. We have the same detestation of the one act as the other. By this you will see how we regard the American who tries to take our country or our watch. But for the American people generally we have respect and P. O. Box 146. admiration, and we shall always be glad to imitate them-when they do right.

6. The Filipinos have had more than enough of missionaries. We have about 9,000,000 of Roman Catholics in the Philippines, and if it is a good thing to convert them to Protestantism, then is would be a good thing to convert the 18,000,000 of Catholics in the United States. But we should be glad if the missionaries would give some other country a turn-Hawaii, for instance The statement of Sixto Lopez that the natives of the Philippines are fit for independence, is not supported even by the intelligent class of Filipinos, who are convinced that the people are not capable of assuming the responsibilities of government. The agitation for independence was started by self-appointed leaders of Sixto Lopez' class, whose desire was to exploit the people. This was shown in the last rebellion against Spain, when the independence cry was promptly dropped for a large money consideration. Mr. Lopez may rest assured that no treaties of Biac-na bato will be entered into by the American government, and that any junketing trips he may desire to make to Europe or America in the future will have to be paid for out of his own

modify his views when he arrives in Manila. At least, we would advise him
